

18th June, 2021

Dear Resident, Family and Friends,

COVID-19 UPDATE

We write to advise of current NSW Health news and update on positive Covid-19 cases confirmed in the Sydney area.

Due to the close proximity of the hot spot areas and the potential risk this poses to the health & well-being of all, until further notice all visitors must wear a surgical grade mask within Aged Care Home until further notice. A supply of masks will be provided at the front desk of each James Milson Village Reception area.

Visitors who have been to any of the recent COVID – 19 Hotspots will not be permitted entry into Aged Care Home.

If visitors have been to any of the hotspots, they will be asked to self-isolate for 14 days from the time they were there, seek testing and do not leave isolation for 14 days, even if their test comes back negative.

Visitors who are unwell and have flu-like symptoms will not be permitted entry into Aged Care Home until further notice.

Below is the latest alert from NSW Health AND COVID – 19 Hotspots: All the current warnings in NSW.

Please note that some of the venues listed below are over 14 days since exposure, however it is important that anyone who attended a venue below follows the health advice provided. It is important for the ongoing control of COVID-19 in NSW that anyone in the state who has any **COVID-19 symptoms**, no matter how mild, continues to **get tested** immediately and **self-isolate** until a negative test result is received.

For more information and support at this time:

- Lifeline Australia 13 11 14
- Kids Helpline 1800 551 800
- NSW Mental Health Line 1800 011 511

For information about any current restrictions, visit the **NSW Government website** or alternatively please contact your Management Team for further support and information.

Kind Regards,

Linda Matthews

Linda Matthews
Chief Clinical Governance Officer

COVID-19 HOTSPOTS

If you have been to any of these locations during the time and date indicated, you should:

- Immediately self-isolate until 14 days after you were last there
- Get tested even if you have no symptoms
- Watch for Covid-19 symptoms, get retested should any symptoms recur
- Even if you get a negative test, you must stay in isolation for 14 days as it can take 14 days before you may show symptoms or test positive.
